

PAINE'S CELERY COMPOUND

Makes Work Easy.

Bessie M. Bishop of Boston, Mass., writes:

"Some six weeks ago I found myself suffering from one of the worst forms of indigestion, and I was frantic with despair. I had often heard of Paine's Celery Compound, and two weeks ago to-day I commenced using it. In three days the pain left me and I enjoyed my first night's rest in six weeks. In the first week of its use I gained three and a half pounds. I am employed by Lyons & Alexander, 134 Milk st., and shall always heartily recommend the Compound to all sufferers."

PAINE'S CELERY COMPOUND

Sustains vigor and health of body.

Heavy work, long hours, close confinement indoors, want of exercise exhaust strength, the nerves are overstrained, the kidneys are weakened, digestion is not complete, the liver is sluggish, the blood is thin and cannot nourish the body. Paine's Celery Compound makes nerve force, relieves the tired body, restores the wasted energy of the vital organs and makes blood clean, full of nourishment.

RICH BLOOD, STRONG NERVES, HEALTHY BODY.
